

This user manual provides role-based guidance for Admin, Manager, and Staff users of the FRACA SERVCOM Inventory Management System. It covers logging in, navigating the interface, managing products, sales, purchases, stock adjustments, generating reports, and using the admin verification modal for delete actions. Step-by-step instructions, screenshots, and troubleshooting tips are included to help users efficiently operate the system.

INVENTORY MANAGEMENT SYSTEM

USER MANUAL DOC

User Manual

FRACA SERVCOM Inventory Management System

Document Version: 1.0

Date: March 2026

Audience: All system users (Admin, Manager, Staff)

1. Introduction

The FRACA SERVCOM Inventory Management System is a web-based application for managing business inventory, sales, purchases, suppliers, customers, and financial reports. It runs in any modern web browser and requires no software installation.

1.1 User Roles

Admin

Full access — manage users, all CRUD operations, hard deletes |

Manager

All operations except hard deletes (requires admin verification)

Staff

View products/categories/suppliers/customers; create sales and purchases |

1.2 Accessing the System

Open your browser and navigate to the system URL (e.g., `http://localhost:8000` in development or your production domain). You will be redirected to the login page if not already signed in.

2. Logging In

URL: `/login`

1. Enter your email address and password
2. Click ****Log In****
3. You will be redirected to the Dashboard

Login page — Login form with email/password fields and the Log In button]

Default credentials (development/demo):

Email - Password - Role

admin@inventory.com - password123 - Admin

manager@inventory.com - password123 - Manager

staff@inventory.com - password123 - Staff

****Logging Out: ****

Click your name in the top-right navigation bar, then click ****Logout****.

3. Navigation

The top navigation bar is always visible. The links shown depend on your role.

Nav Item	Roles With Access
Dashboard	All
Products	All
Categories	Admin, Manager
Suppliers	Admin, Manager
Customers	Admin, Manager
Sales	All
Purchases	All
Stock Adjustments	Admin, Manager
Reports	All
Users	Admin only

Navigation bar — show the full navbar with all menu items visible (use Admin account)

4. Dashboard

URL: ``/``

The dashboard gives you a real-time overview of the business. It refreshes automatically every 30 seconds.

4.1 Summary Statistics Cards

The top row shows key metrics:

- Total Products — number of products in the system
- Today's Sales — total sales revenue for today (KSh)
- Low Stock Items — products at or below their reorder level
- Total Users — registered system users

Dashboard top stats cards — show the 4 metric cards with values]**

4.2 Extended Metrics (Admin / Manager)

Below the main cards:

- Monthly Sales and Monthly Purchases (KSh)
- Profit Margin (%)
- Inventory Valuation (KSh)
- Out of Stock count, Pending Sales, Pending Purchases, Active Alerts

Dashboard extended metrics row

4.3 Widgets

The lower section contains four widgets:

- Recent Activity — a timeline of the latest sales, purchases, and stock changes
- Top Performers — top-selling products this month with medal rankings
- Financial Summary — monthly revenue, expenses, and net profit
- Pending Actions — quick links to items needing attention (low stock, pending orders, alerts)

Dashboard alerts panel

4.5 Quick Action Buttons

Buttons at the top of the dashboard provide one-click navigation to key pages (Products, New Sale, New Purchase, Reports).

Dashboard quick action buttons row

5. Products

URL: `/products`

The Products page lists all inventory items with search, filter, and pagination.

5.1 Viewing Products

The table shows: SKU, Name, Category, Stock Quantity, Selling Price, and Actions.

- Products with stock at or below the reorder level show the quantity in **red** with a warning icon
- Use the search box to filter by name or SKU
- Use the Category and Supplier dropdowns to filter by those fields
- Click **Clear Filters** to reset all filters

WM-002	Wireless Mouse	Electronics	20000	KSh 2,500.00	

Showing 1-2 of 2

Products page — show the full table with at least one low-stock item highlighted in red

5.2 Adding a Product (Admin / Manager)

1. Click Add Product (top right)
2. Fill in the form:
3. -Name (required)
 - SKU (required, must be unique)
 - Barcode (optional)
 - Category and Supplier (dropdowns)
 - Cost Price and Selling Price** (KSh)
 - Current Stock and Reorder Level
 - Description (optional)
4. Click Save

SKU	Name	Category	Quantity	Selling Price	Actions
WM-002	Wireless Mouse	Electronics	1000	KSh 950.00	
ML-003	Metallic laptop Stands	Electronics	500	KSh 1,900.00	
LP-001	Laptop	Electronics	2	KSh 1,200.00	

Showing 1-3 of 3

Add Product modal — show the form with fields filled in

5.3 Editing a Product (Admin / Manager)

Click the pencil icon in the Actions column. The same form opens pre-filled with the product's current data. Make changes and click ****Save****.

5.4 Deleting a Product

- Admin: Click the trash icon → confirm in the dialog
- Manager: Click the trash icon → enter admin email and password in the verification modal

Admin Verification Modal — show the modal asking for admin credentials]**

6. Categories

URL: `/categories`

Categories group your products. Each category shows its name, description, and the number of products assigned to it.

6.1 Adding a Category

1. Click **Add Category**
2. Enter a **Name** (required, must be unique) and optional **Description**
3. Click **Save**

6.2 Editing / Deleting a Category

- Click the pencil icon to edit
- Click the trash icon to delete (a category with products assigned cannot be deleted)

Categories + Add Category

Showing 1-2 of 2				

Suppliers page — Table with at least 2–3 supplier records

8. Customers

URL: `/customers`

Customers are the people or businesses you sell to. Sales can be linked to a customer or recorded as "Walk-in."

8.1 Customer Fields

- First Name, Last Name, Email, Phone, Address

8.2 Managing Customers

- Click ****Add Customer**** to create a new record
- Click the pencil icon to edit
- Click the trash icon to delete

Customers page — show the table with customer records and action buttons

9. Sales

URL: `/sales`

The Sales page lists all sales transactions. Each sale has an invoice number, customer, date, total amount, and status.

9.1 Viewing Sales

Use the search box to find a sale by invoice number or customer name. Filter by status (Pending, Completed, Cancelled) or date range.

Sales page — show the table with multiple sales, different statuses, and filter controls

9.2 Viewing a Sale's Details

Click the invoice number (blue link) in the table to open a read-only detail view showing all line items and the total.

Showing 1-2 of 2

New Purchase modal — form with supplier selected and line items

10.3 Editing / Deleting a Purchase

Same workflow as Sales — pencil to edit, trash to delete (with admin verification for Manager role).

11. Stock Adjustments

URL: `/stock-adjustments`

Stock adjustments allow you to manually correct stock levels — for example, after a physical stock count.

11.1 Making a Stock Adjustment

1. Click ****New Adjustment****
2. Select the ****Product****
3. Choose the ****Adjustment Type****: Add, Remove, or Set
4. Enter the ****Quantity****
5. Enter a ****Reason**** (required for audit trail)
6. Click ****Save****

Every adjustment is logged in the stock history with the user who made it, the previous stock, and the new stock.

12. Reports

URL: `/reports`

The Reports page provides six report types accessible via tabs.

12.1 Available Reports

Report	Description
Inventory Valuation	Current stock value at cost price and potential revenue
Sales Report	Sales transactions with revenue summary
Purchases Report	Purchase transactions with total spend
Profit & Loss	Revenue vs expenses breakdown by period
Stock Levels	Current stock status with low/out-of-stock indicators
Stock Movement	History of all stock changes (in/out)

12.2 Generating a Report

1. Click the tab for the report you want
2. Set any available filters (date range, category, supplier, customer, product)

3. Click ****Generate Report****

4. Results appear in the table below with summary cards at the top

12.3 Exporting to CSV

After generating a report, click ****Export to CSV**** to download the data as a spreadsheet file.

13. Users (Admin Only)

URL: `/users`

The User's page is only accessible to Admins. It lists all system users with their roles.

13.1 Adding a User

1. Click ****Add User****
2. Fill in: Name, Email, Password, Role (Admin / Manager / Staff)
3. Click ****Save****

13.2 Editing a User

Click the pencil icon to update a user's name, email, or role.

13.3 Deleting a User

Click the trash icon and confirm. This action is irreversible.

Users page — show the user table with role badges and action buttons

14. Profile Settings

URL: `/profile`

Click your name in the navigation bar and select ****Profile**** to:

- Update your name and email address
- Change your password
- Delete your account (irreversible)

The screenshot displays the 'Profile Settings' page with three distinct sections:

- Profile Information:** Contains input fields for 'Name' (pre-filled with 'Philip Lee') and 'Email' (pre-filled with 'phillee2003@inventory.com'). A red 'Save Changes' button is located at the bottom of this section.
- Update Password:** Contains three input fields labeled 'Current Password', 'New Password', and 'Confirm New Password'. A red 'Update Password' button is at the bottom.
- Delete Account:** A red-bordered section with a warning message: 'Once your account is deleted, all of its resources and data will be permanently deleted. Before deleting your account, please download any data or information that you wish to retain.' Below the message is a red 'Delete Account' button.

Profile page — show the profile edit form

15. Common Workflows

15.1 Receiving New Stock

1. Go to **Purchases** → **New Purchase**
2. Select the supplier and set status to **Received**
3. Add all purchased products with quantities and unit costs
4. Save — stock levels update automatically

15.2 Processing a Sale

1. Go to **Sales** → **New Sale**
2. Select the customer (or leave as Walk-in)
3. Add products and quantities
4. Set status to **Completed** and payment method
5. Save — stock levels decrease automatically

15.3 Investigating Low Stock

1. Check the **Dashboard** — the Low Stock card shows the count
2. Click the Low Stock link in the Pending Actions widget to go to Products
3. Products with red quantities are at or below reorder level
4. Create a new Purchase to restock

15.4 Checking Business Performance

1. Go to **Reports** → **Profit & Loss** tab
2. Set a date range (e.g., current month)
3. Click **Generate Report**
4. Review revenue, expenses, and net profit summary cards

16. Notifications and Toasts

The system shows brief notification messages (toasts) in the bottom/top-right corner of the screen after every action:

- Green — success (record saved, deleted, etc.)
- Red — error (validation failed, server error, etc.)
- Yellow — warning

These disappear automatically after a few seconds.

17. Troubleshooting

Issue	Solution
Page shows "Failed to load"	Check your internet connection; refresh the page
"You do not have permission" message	Contact your Admin to update your role permissions
Sale total shows	Select a product from the dropdown before entering quantity
Buttons/modals not working	Ensure JS is enabled in your browser
Cannot delete a category	Remove/reassign all products in that category first
Sale total shows 0	Select a product from the dropdown before entering quantity
Login fails	Check caps lock, contact admin to reset password

This concludes the user manual. For additional assistance, please contact your system administrator.
